

This week I am celebrating **4001** downloads for the **Conversations With Healers Podcast!** ☐☐☐

Here's what one of the listeners is saying:

### **Opens Portals to New Levels of Consciousness**

"Damla is an excellent host. You can tell she has thought out her episodes with careful deliberation. And she is naturally curious, which opens new channels to information and consciousness we just wouldn't have access to if she was asking typical run-of-the-mill questions. Damla goes deeper and takes us with her!! 5★ all the way!"
