

**In this Conversations With Healers episode, my guest is Dr. Jude Currivan,** a cosmologist, planetary healer, futurist and author of the best-selling and award-winning *The Cosmic Hologram* (2017), and *The Story of Gaia* (2022). Previously one of the most senior international business women based in the UK, member of the Evolutionary Leaders circle and co-founder of WholeWorld-View. Jude has experienced multidimensional realities since childhood, holds a Ph.D. in Archaeology researching ancient cosmologies and a Master's Degree in Physics from Oxford University, specializing in cosmology and quantum physics. Her work integrates leading-edge science and universal wisdom teachings, aiming to serve the evolution of consciousness.

### **We talked about:**

- what compelled Jude to re-tell the story of Gaia as a story of love, relationship, and evolution, and give voice and meaning to our 'Soular System' and the cosmos,
- the evolutionary impulse of the universe that results in collaborative relationships and dynamic co-evolutionary partnerships, and the importance of our inter-being,
- the new 'Science of Love' and how redefining our relationship to Gaia and cosmos as a loving family changes everything,
- how when we heal our relationship with Gaia, we can heal ourselves and vice versa,
- and so much more.

**You can find out more about Jude and her work** at her websites
