

In 2018, I fell in love with Soul Level Astrology taught by Mark Borax. Of course the kind of astrology that I fell in love with had to be all about the soul, had to have its origins in Atlantean Astrology, and needed to have a whole other chart configuration than any other astrology practiced out there (saluting my weirdness-loving Aquarian sun).

This is the kind of Astrology that never assumes what a sign is. Every single time I look at a chart, I am in the moment diving into why this soul chose to

incarnate, and re-interpreting what their special kind of Libra is, what their special kind of House 5 means, what their special configuration of their birth chart has to say here in the now.

In this kind of Astrology that I practice, the birth chart is a dynamic quantum map of a pure love matrix. I get to deeply see and know every single person through their magical wheel, their birth chart. I get to see them in their pure soul essence. I get to relay them all the challenges, dilemmas, lack of love they have ever known. I get to show them their own beauty, wisdom, longings, and divine potentials. I get to let them see and understand what a unique and powerful being they are.

You can experience my Astrology Soul Readings with me in two ways:

Birth Chart Soul Reading: Your astrological birth chart is a quantum map for living the highest potentials of your soul. It is an energetic soul imprint and resource to help you navigate the high tides and consuming waves of your life, as well as make the best of low tides and easy flowing winds. Through this reading, I will show you your unique beauty, divine soul essence, and how to activate your deepest life satisfaction and highest potentials.

Whole Life Timing Soul Reading: What if you could have a deep soul understanding of all the cycles and waves of your life? What if you could know precisely what your soul assignment is for the next 30 years and beyond? What if you could realize that your soul has a much bigger plan for you than you have ever known or realized? Through this reading, I will give you a soul map of your life from age 0 to 100. We will look at your progressed cycles, dharmic currents, main

transits, and deep galactic influences. You will come out with a deep understand of your soul cycles that already have passed as well as upcoming trials and milestones.
