

In this video, I am explaining why you need regular energy clearing and maintenance.

Why do you need regular energy clearing and maintenance? Because you are a changing and evolving soup of energy who lives in a soup of energy. It is natural for our systems to go out of tune and coherence through our daily lives. Just like brushing your teeth or taking a shower, your energy system needs daily clearing and maintenance.

I am offering energy clearing through Monthly and Mini Energy Tune-Ups in the [Chakra Bliss Vault Membership](#). These are like vacuuming your house for daily maintenance. It feels good and fresh afterwards.

Monthly Focused Healings go deeper than that and help you open the cupboards (chakras, energetic wounds, stuck places in you) you haven't looked at and tended to in a while. The focused healings help you take out what is not needed, organize what stays, and bring light and expansion to ALL parts of your home (aka your being).

All of this and more is available at the [Chakra Bliss Vault Energy Healing Membership](#).
